

Elections

This is a small set of records that have to do with elections within the county.

- **Election Results** -- The Board of Supervisors was required to certify the elections in the county, and results of those elections, usually by voting district are found in the minutes at least from 1900 on. This image set is those results which were extracted from the Board of Supervisor Minutes images.
- **Election Certificates** -- These certificates start in 1869 and go through 1934. They give the name and the office they are being certified for as well as the year.
- **Candidate Statements** – Found in Drawer RC5B1-4 in the County Record Repository, this small set of statements is from 1930. Information includes name of candidate, office they were running for, in a few cases the party they belong to, the amount they spent, and donations to their expenses.
