

Maggie's Instructions for RootsTech

Look at the lives sessions first to see if there's one you'd like to attend. Check both Main Stage and Sessions.

<https://www.familysearch.org/rootstech/calendar>

Then take a look at the pre-recorded sessions. Go to the menu at the top. Select Sessions and make a note of any you'd like to see. You can filter the topics by location, topic, etc. **Don't forget to filter by year....2022!**

It's at <https://www.familysearch.org/rootstech/search/>

Many of these sessions are already up and can be viewed NOW. The rest will be available on March 3 at 10AM. You can view them any time after that. The playlist capability is now available, so you'll be able to list the ones you want to see by clicking the X next to the title.

Make sure to go to the Expo Hall ...which is not up yet. I've read that most of the vendors will be live on March 3, so it might be best to stop there first. Most of these will be answering questions and doing demos in real time. That may be the best use of your time. Sometimes they even have great discounts on their products!

Don't forget – **all times are one hour earlier** in California compared to SLC.
